Fabric description

An easy-care fabric with a water- and dirtrepellent finish. The fabric consists of 67% polyester and 33% cotton; it weighs 240 g/m². Polyester is used in warp and weft, which yields a well-balanced fabric and enables excellent stretch in all directions. With primarily polyester on the outside, the fabric is definitely durable. And it complies with Öko-Tex standard 100.

Comfortable winter trousers

Winter trousers

Winter trousers for workers, drivers, and service professionals. Less bulky lining compared to traditional squall pants. These trousers will never get in your way. External, reinforced pouch pockets. Double back pockets, one with flap. The leg pocket has room for pens, writing pad and cell phone. Belt included.

Size: 46 - 60, 96 - 112, 148 - 154
