Hood

Goes with our parka. Classic, tested design with storm flap and protection for chin and neck. Attach it to the parka when wind and cold weather make temperatures unbearable. Colour: yellow/navy.

Size: M - L

OrderNo: 098011

Reflecting, flameproof trousers

Björnkäders' lined trousers have an extended back and snow lock to keep warmth in and snow out. Two front pockets, leg pocket, and closable back pocket ensure that you have everything you need with you. The trousers come with an adjustable waist and belt loops. Flameproof reflectors. Colour: yellow/navy.

Size: S - XXL
CE: EN471-2. EN531-A,B1,C1. EBR

OrderNo: 2288011

Flame protection & hi-visibility in the same garment!

Cosy underwear if you need flameproofing close to your body. Function and protection in the same garment

Using approved underwear is at least as important as using the right outerwear. So we designed a totally new collection of underwear to create optimal combinations with our various flameproof outerwear.

Our new underwear is made with 55% Protex-M (modacrylic, a synthetic fibre) and 45% cotton (not flameproof treated). The combination of Protex-M and cotton helps carry perspiration away from the body, so you feel drier than you would in a garment of 100% cotton.

We create the collection in ribbed tricot fabric. The garments are sewn with flat-lock seams so they don't chafe. The undershirts have reglan sleeves for maximum ease of movement. Our new fabric is not flameproof treated and complies with EN 531 (A, B1 and C1). It's also approved for use in undergarments according to EBR (IN 033 industry standard for light-arc testing).

CE EN 531
A, B1, C1

Flameproof short sleeve T-shirt and boxer shorts

Flameproof underwear, made of Protex-M(modakryl) 55% and cotton 45%.

Size: S - XXXL

OrderNo: 984675 T-shirt, short sleeve
984674 Boxer shorts

Devold flameproof underwear

Devold underwear is made with 50% wool and 50% viscose. The viscose contains flameproof fibres. The long underwear have snug fitting knit cuffs at the leg opening; the shirt has snug fitting knit cuffs neckline to increase safety.

Size: S - XXL

OrderNo: 984567 Long underwear
984568 Long sleeve shirt

CE EN 531
A, B1, C1

Fabric description

The fabric in this supple, laminated polyester outfit withstands weather and wind - a rainstorm is no match for it either. And you are highly visible because the upper parts comply with EN471 class 3. Need we mention that these garments also comply with ENV 343, the bad weather standard? Weight 160 g/m². Re-treat the garment for water-proofing after several washings for best water resistance, and then you'll have an outstanding all-weather garment for a long time to come.
